

## **Application for Home or Hospital Instruction**

*Edited 9/22/23*

A student may be eligible for home or hospital instruction if the student has health conditions such that they are unable to attend school for 10 or more consecutive or cumulative school days during a school year. Students who are 18 or older, or parents of students who are under 18, who believe the student may qualify for such services may request home or hospital instruction by completing this application and providing all necessary parts of the application, which for students under 18 includes the Parent/Guardian Agreement for Home or Hospital Instruction. All applications must include a complete Medical Certification of Need signed by a qualified medical professional that contains all the requirements stated in GEC's Home and Hospital Instruction Policy.
